

Jessica is originally from Minnesota and has been caring for and working with children since she was in high school. She completed a BA in Child Psychology, has taught and cared for children 0-18 years in multiple settings - including day camps, dance classes, and infant care centers.

She was a part time nanny during her graduate studies to become a pediatric nurse practitioner and has been working as a RN in pediatric doctor's offices for the last two and a half years.

Jessica is patient and kind, and likes to care for children like they are family! In her free time she enjoys running and reading.
