

The Baby Nurse, Where Babies Are Our Business

August 2010

To Whom It May Concern:

Suzanne Waldron was our baby nurse for our third son. She lived with us and took care of our baby for the first 13 weeks of his life. Suzanne is wonderful with newborns!

In addition to knowing all of the details of taking care of a newborn, Suzanne's warm and compassionate nature made her an excellent fit with our family. From the moment we arrived home from the hospital, Suzanne was comfortable with the baby: changing his diaper, attending to his belly button, cleaning and taking care of his circumcision, feeding him a bottle, etc. She was familiar and competent with cleaning bottles, pumping accessories and storing and thawing breast milk.

If I were to have another baby, I would absolutely want Suzanne with us to help take care of him! She was lovely to have in our home, and it was for quite an extended period of time. Suzanne knew when to help out and when to let us enjoy our son. Her nature is quiet and relaxed.

I highly recommend Suzanne to anyone who wants or needs assistance with their newborn baby.

Sincerely,
Amy & Matt
