TO WHOM IT MAY CONCERN

We couldn't have been happier having Cheryl as our baby nurse. And we will surely work with her again if and when we have the good blessing and fortune to have our next child.

My husband and I had never changed, fed, burped or bathed a baby prior to our son's arrival. We were nervous and a bit scared but Cheryl taught us everything we needed to know, and was never pushy or aggressive. She helped us during the doctor's visits, explained milestones to look for, and soothed our son after his bris/circumcision.

During pregnancy we were concerned that having a nurse in our home would be uncomfortable or intrusive, but Cheryl's presence was the opposite. She was calming and kind, tidy and respectful, best of all – she was caring and loving to our son.

We truly cannot say enough wonderful things about her.
