

The Baby Nurse, Where Babies Are Our Business

October 26, 2010

To Whom It May Concern:

We had Kathleen with us for two months. If we could, we would have kept her forever! That is how wonderful she is.

She is a true professional and became like a member of our family. She knew exactly when to take charge and when to give us our space. She is very kind and loving and I could tell that she loved my baby. I always felt very secure and confident leaving my baby in her care.

We will always be grateful to her for starting our new family out on the right track!
