

The Baby Nurse, Where Babies Are Our Business

To Whom It May Concern:

We are second time users of the Baby Nurse services. For our firstborn daughter we were thrilled to have Consuelo be the special nurse that took us through the journey of first time parents. When our second child was born we immediately booked Consuelo again but due to scheduling conflicts she was unable to be with us but recommended another nurse in their group, Elvie. I was very concerned about having someone "new" when we had such an amazing experience the first time. Consuelo assured me that we would be very happy and she was absolutely right. We loved Elvie. She exceeded all our expectations.

Elvie was so warm and wonderful she immediately took to our new son with ease. She was a true professional managing that balance between being present and giving us space to be a new family. Most importantly she was amazing with our two year old daughter who would wake up in the morning asking for Elvie. She pitched in and helped out in areas outside of her responsibility, including helping potty train my daughter! She made me feel totally relaxed and made sure I got the rest I needed as a new mom. She was fantastic with our nanny showing her the routine we set up with the new baby so that the transition when Elvie left would be seamless.

Elvie is a very special, loving, capable, trustworthy and wonderful person. We felt very lucky to have had her with us and would highly recommend her.
