

**The Baby Nurse, Where Babies Are Our Business**

October 16, 2009

To Whom It May Concern:

I heartily recommend Lydia Marcell as a baby nurse. She came to my household almost immediately after I gave birth and has cared for my daughter for nights for the last 4 weeks. She arrives each night excited to see the baby and her calm and warm presence is soothing to us both!

She coached me through many facets of child care, such as bathing, feeding, burping, changing, diapering and the most terrifying, nail care. I can't imagine the first month without her help!

Anyone hiring Lydia would be lucky to have her!
