TO WHOM IT MAY CONCERN

I highly recommend Lydia as a Baby Nurse. She came to us from The Baby Nurse - Where babies are our business and took care of my infant son Harry.

While she was with us she went way beyond her call of duty. She is very thoughtful and helpful. She loves her work, she is considerate with her advice and baby tips and has a great sense of humor, which helped in keeping things light and cheerful. Although Lydia was in our home 24-hours for a number of weeks, she was never intrusive and was always respectful of our family's "private" time.

She will be an asset to anyone who hires her.

Please call us should you desire any further information.

Best,
Danielle & David
