

The Baby Nurse, Where Babies Are Our Business

August 26, 2010

To Whom It May Concern:

My newborn son and I had the pleasure of using Solange Gonzalez as our baby nurse this summer. She was patient, loving and kind, and she integrated well into my family. She has a thorough understanding of infant care, and I felt fine leaving my son with her while I stepped out, knowing he was 100% safe and in good hands.

My son had difficulty falling asleep a few nights when Solange was with us, and she was able to soothe him throughout the night, which was a huge relief. She took it upon herself to show me how to bathe him, administer a bottle, swaddle and comfort him, which gave me confidence to be able to do those things alone. While not a lactation consultant, Solange was able to provide some help and support in breast feeding which I appreciated.

There is very little, if anything, that a new mother needs to worry about when Solange is around. A friend who stopped by for a visit said that Solange was “an angelic presence” and I would have to say that I agree. She has a delightful, peaceful temperament which helps offset the stresses that come along with being a brand new mother.

I would highly recommend Solange as a baby nurse. If you have any questions or wish to discuss in greater detail, please don't hesitate to call me.

Sincerely,

Elizabeth
