

## TO WHOM IT MAY CONCERN

Marie came to us about three weeks after the birth of our son. My wife's delivery was difficult, and she was still recovering. We were both exhausted and overwhelmed. We felt comfortable with Marie as soon as she arrived, as did our son, who was always calm and happy with her around. Marie offered reassurance and support, going above and beyond what we expected. She gave us parenting tips and resources on everything from breastfeeding to bathing, really teaching us the ropes. It was wonderful to be able to sleep soundly at night knowing that Marie was taking care of our son. She comforted him, reading, singing, and holding him as we caught up on sleep and got used to our new role as parents.

Marie is a professional, helpful, courteous, loving, and trustworthy baby nurse. We highly recommend her!
