

The Baby Nurse, Where Babies Are Our Business

January 25, 2010

To Whom It May Concern:

This letter is a recommendation for Kathleen who worked for us for five years. Kathleen began her tenure as our baby nurse caring for our newborn daughter. She quickly became a welcome addition to our family. Kathleen is one of the most caring people we have ever met and maintains her equanimity through thick and thin.

Over the years, Kathleen's relationship with our daughter blossomed and she became my daughter's best friend, confidante, creative muse and teacher. She embraced her relationship with my daughter and saw the fostering of her complete development as an integral part of her job description.

In summary, I cannot recommend Kathleen highly enough and without any reservation. She is scrupulously honest and 100% reliable. She is warm, caring and an ideal caregiver. If we ever decide to have another baby, she will be our third phone call (after informing our respective parents). Should you wish further information about Kathleen, please do not hesitate to call me.

Sincerely,
Jeffery
Irvington, NY
