To Whom It May Concern:

This is a letter of recommendation for our baby nurse, Consuelo, who we used to help care for our first born child when we returned from the hospital.

Consuelo was a dream to have around, as she was always there when I needed assistance and held back when I wanted to bond with my baby on my own. She has a very sweet and gentle presence and Marley took to her immediately.

I felt very confident caring for my daughter once Consuelo showed me the ropes of new motherhood. I was able to bathe, soothe, feed and put my daughter to sleep easily after using the techniques that Consuelo had shown me during her stay with us.

I would highly recommend her to anyone seeking a baby nurse.

Kind regards,
Jennifer & Andrew
Parents-to-Marley (3 months)
