

The Baby Nurse, Where Babies Are Our Business

To whom it may concern,

I am writing to recommend Consuelo to any potential clients. Consuelo was with us from the day Jack was born until he was 2 1/2 months old. She looked after his umbilical chord and now he has a perfect little belly button, and tended to his circumcision, and now he has a perfect little...well, you get the picture.

Consuelo was incredibly patient and encouraging and she never made us feel foolish or like we were doing it wrong. She gave us the confidence we needed by sometimes guiding us and sometimes standing by as we figured it out. She provided us with the information we needed (she is incredibly well read on everything to do with babies) but she also encouraged us to do things our way and she then supported our decisions.

Consuelo was very respectful and gave us our space when we needed it and she kept encouraging us to go out on date nights. She is easy to be around and she is always friendly and positive.

Before Consuelo came I was terribly anxious about coping without sleep. She knew that was my concern so she handled the night feedings and my husband and I got eight hours of sleep! That was Heaven.

When we went on a trip Consuelo made a check list for us and helped us pack. She is extremely organized and efficient. By the time she had left she had sorted out a system for Jack's room which made it very easy for us to maintain.

Most importantly, Jack adores Consuelo. His eyes would light up every time she came in the room and it was clear that he felt incredibly safe with her. It was very touching listening to her singing to him over the baby monitor. We feel like Consuelo gave him a wonderful start in life and now it is up to us to continue.

Please feel free to call us with any questions you have about Consuelo.
