

**The Baby Nurse, Where Babies Are Our Business**

Laura & Diallo, Park Slope, NY

TO WHOM IT MAY CONCERN

My husband and I are so grateful to Consuelo for the help and guidance she gave us as new parents. We hadn't planned on hiring a baby nurse before our son was born, but a few weeks after his birth we were overwhelmed and unable to soothe him. Thankfully, Consuelo came to our rescue. When she walked in, our three-week son was screaming (as he did for hour's everyday) and she knew exactly what to do to calm him down. He stopped screaming within minutes. She has extensive experience, and an intuitive sense of what babies (and their parents) need. She taught us so much about caring for a newborn and helped us catch up on some much needed sleep. As well as being extremely professional, she has a great personality and we really enjoyed spending time with her on a personal level as well. If we ever have another baby, we're definitely booking her as soon as we can!

Also, Marie helped us out one night when Consuelo was unavailable and we needed a baby nurse. Because of her, my husband and I were able to go out and enjoy our anniversary knowing that our newborn was safe in her competent care.

Thanks.
