TO WHOM IT MAY CONCERN

This is a letter of recommendation for Eveline Marine Buntin. From June 29<sup>th</sup> till July 16<sup>th</sup> of 2008 Marie was able to bless us with her care and love of our newborn baby boy. From day one Marie was reorganizing our boy's closet to make it more organized till the last days when she spent endless nights soothing our baby who was suffering from an upset stomach.

All along Marie did it with love and it was our pleasure to have her with us these first days of our child's life. I would highly recommend her for any parents who are looking for someone who will work hard and give love to their child when needed. All this, plus she has a keen knack for holistic remedies to soothe baby and mom
