

The Baby Nurse, Where Babies Are Our Business

February 20, 2010

TO WHOM IT MAY CONCERN

It is with great pleasure that we recommend Aulda as a baby nurse. Aulda took care of our newest son Miles for 6 1/2 months and is highly capable, caring and reliable. Although we chose to have Aulda during the day on a 12-hour shift, we recommend her to anyone whether considering day or night. We felt completely at ease with Aulda and she soon became more than a baby nurse and that of a family member. She is intelligent, attentive, patient, kind and non-intrusive.

As a second time mother I assumed that there would be little left to learn from a baby nurse. On the contrary! Aulda has provided invaluable guidance and advice, especially on nursing and sleep training. She encouraged me to pump throughout the day so that I could store extra milk so that I could go out to dinner or take a long break. She had Miles sleeping through the night at 4 months. Also, as a mother herself, she was able to share her own experience of raising children who are close in age.

Having Aulda in our home was a pleasure. She went above and beyond what was expected of a baby nurse. She often took care of our older two-year old child Max, if I was nursing Miles or if I needed to rest. Max has become very attached to her and will miss her dearly. Most importantly, we are grateful for the amazing care she has provided to Miles, as though he was her own. His face lights up with a big smile when he sees her in the morning and we know that a special bond has been formed.

We feel very fortunate to have had Aulda as our baby nurse and we were saddened when she left. But, we are consoled knowing that another family will greatly benefit from her services.

Sincerely,
Megan & Jon
