To whom it may concern:

I cannot say just how much we enjoyed Aulda as a baby night nurse for our daughter. Since our baby was born prematurely, it was important to us that we had a nurse who would monitor her throughout the night. Aulda was such a nurturing and loving person who would hold our daughter for hours and make sure her needs were met.

Aulda was supportive and offered advice about when to feed and burp the baby. She was very professional, always on time and in a nurse uniform. We wish she could stay with us forever as she was a great support to my family and would be great with any baby.

I also want to thank Consuelo, the Administrator, for her quick correspondence with me in trying to secure a nurse. The website is great and I appreciate that I did not need to pay a fee to be connected with a great nurse.

Best Wishes,
